

# SPEEDING

Speeding endangers everyone on the road. It's important to be aware of the speed limit, adhere to it, and adjust your speed for changing road or weather conditions.

## CONSEQUENCES OF SPEEDING

- Reduced response time and increased stopping time
- Greater chance of losing control of the vehicle
- Increased fuel consumption and costs
- Speeding fines and tickets - leading to points or loss of licence
- Increased risk of crash severity and reduction in protection equipment - leading to more severe injuries
