

# DRIVING IN WINTER

- Clear all ice and snow from the vehicle
- Check your tyres - make sure they have sufficient tread to grip the road
- Use your lights - low or dipped during the day, fog lights in dense fog or heavy snow
- Increase your stopping distance from other road users
- Accelerate and brake gently and be prepared for varying road conditions
- Pack an emergency kit including, de-icer, ice scraper, small shovel, torch, warm clothing, water and high energy snacks
